

Radiance...

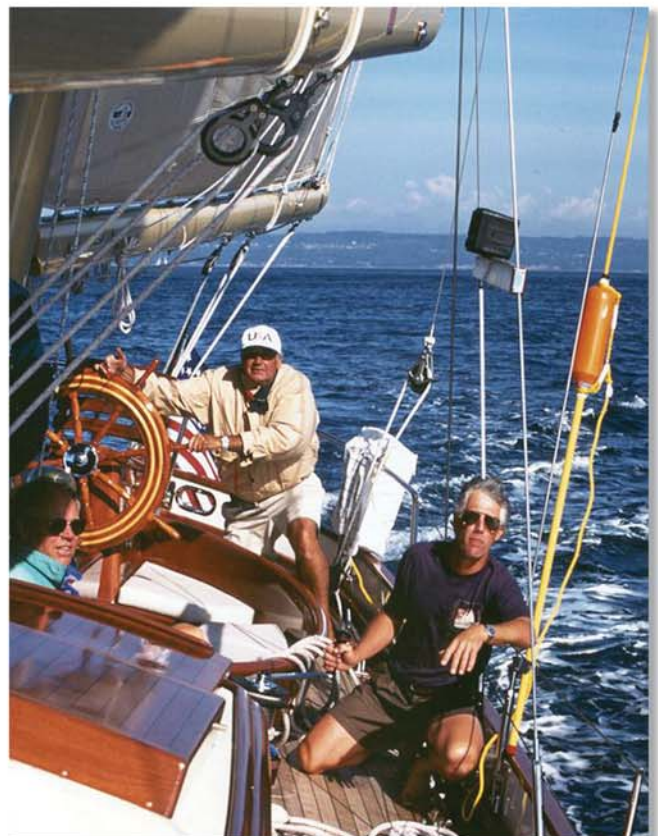

**LEGENDARY YACHTS
CHOSE THE FAMOUS
HERRESHOFF KETCH,
TICONDEROGA, TO
BEGIN IT'S LEGACY OF
CLASSIC RECREATIONS.
RADIANCE HAS PROVEN
TO BE A REMARKABLE
YACHT WHICH
EXEMPLIFIES THE
MISSION OF OUR
COMPANY.**

In years past, most boats, from the fisherman's dory to the square-rigged steam yacht, had character, grace and perfection. Today, there are few indeed who can read the poetry of the boat builder or the perfection in the work of the designer. Radiance speaks of a time when people used to sail and cruise in masterpieces. She also embodies the latest in technology with her composite, steel and wood construction together with her carbon fiber spars and rod rigging. All together, she represents the best of both worlds, old and new, to bring lasting enjoyment and pleasure to those with an eye for beauty and style who wish to leave behind the fast pace and stress of daily living to answer the call of the sea.
